The Children’s Board of Hillsborough County has been investing in children and families for 35 years. Created by referendum in 1988, the Children’s Board funds programs and services at the community level to support children and families. Children’s Board investments ensure:

**Children are Developmentally on Track:**
Early Identification of developmental needs for children birth to age five is essential for optimizing a child’s learning potential and allows caregivers to learn more about their child’s development.

**Children are Healthy and Safe:**
Early preventative health and education; preparing a family to develop nurturing and healthy habits which are enhanced by coordination with community partners including healthcare systems and primary care providers.

**Children are Ready to Learn and Succeed:**
School readiness and academic support for children is designed in a way that fosters academic readiness by age eight. Quality early learning promotes early caregiver involvement and professional development for early care educators. Activities may support character development, provide positive role modeling, and motivate students to learn in safe environments.

**Family Support:**
Support for the whole family by developing informal supports, stability and overall well-being. These relationships establish the foundation for secure attachments and future physical, cognitive and social-emotional health.
GOVERNING BOARD

The Children’s Board is governed by ten Board Members from the local community. Five are “ex-officio”, meaning they serve by virtue of the office they hold. The remaining five members of the Board are Hillsborough County citizens appointed by the Governor of Florida. The Governing Board hires the Executive Director, who is responsible for the leadership and management of the agency.

MISSION

The Children’s Board of Hillsborough County invests in partnerships and quality programs to support the success of all children in Hillsborough County.

VISION

Hillsborough County will be recognized as one of the top places in the nation to raise children.
